

OUR STORY

This wouldn't be the first time that I go abroad. But Turkey is far away from my hometown epic, wondering country in my mind. But it was my first time visiting Turkey and it was flying for the first time. I was so nervous and I was thinking about how it would be! I was very excited and happy to finally visit Turkey at last. I saw that Turkey was a really beautiful country and we played basketball a lot. We visited historical places and tasted local food. All the places were very beautiful and the best part was to make Turkish friends and hang out all together. We communicated and understood each other. It was a nice experience. All the people were kind. We hope we will be in contact forever.
